COMPUTATIONAL THINKING & ARTIFICIAL INTELLIGENCE **(FOR CLASSES III – VIII)**

Dear Parent

We are pleased to inform you that the Central Board of Secondary Education (CBSE) has introduced Computational Thinking (CT) and Artificial Intelligence (AI) into the curriculum for students of Classes III – VIII w.e.f the session 2026-27. This initiative is an important step towards preparing students for the future.

Computational Thinking is a problem-solving approach in which students learn to break down complex problems into smaller parts, recognize patterns, think logically, and develop step-by-step solutions. It is not limited to computers but is a valuable life skill applicable in many areas. This will be integrated with the Mathematics syllabus and will be conducted in class.

Artificial Intelligence has become an integral part of today's digital world. It enables machines to learn, understand, and make decisions. Introducing students to AI at an early stage will help them become better prepared for a technology-driven future.

The benefits for students are as follows:

- Enhances logical and analytical thinking.
- Encourages creativity and innovation.
- Improves problem-solving skills.
- Builds digital literacy and technological understanding.
- Creates a strong foundation for future career opportunities.

The school will implement this through engaging and activity-based learning methods, ensuring that students not only understand the concepts but also gain practical experience.

CBSE has also released student handbooks for the Computational Thinking, which will be covered in the class by the teachers.

The link for the student handbooks are as follows:

Class 6: https://cbseacademic.nic.in/web_material/CurriculumMain27/CTAI_Pri6SH_2026-27.pdf

Class 7: https://cbseacademic.nic.in/web_material/CurriculumMain27/CTAI_Pri7SH_2026-27.pdf

Class 8: https://cbseacademic.nic.in/web_material/CurriculumMain27/CTAI_Pri8SH_2026-27.pdf

We request you to encourage your children to actively participate in this new initiative and support them in their learning journey.

Thank you for your continued support and cooperation.

Amita Ganjoo
