

PARENTS TESTIMONIAL

As a professional with over 15 years of experience in industrial operations, I understand the critical importance of regular audits and feedback loops. In that spirit, I would like to share an update on Devansh's progress which we have observed at home in the short span of 9 months for which we have been associated with your esteemed organization.

Performance Review & Appreciation

We have noted a significant positive trajectory in Devansh's development. From an operational standpoint, his "output" in terms of **behavioral discipline, self-expression, and general confidence** has seen a marked improvement. This evolution is a testament to the school's robust pedagogical framework.

We would specifically like to commend his Class Teacher, **Ms. Aditi Singh**. Her professional conduct has been exemplary, we particularly value her:

- **Fairness and Objectivity:** Ensuring a balanced environment for all students.
- **Gentle Approach:** A nurturing methodology that aligns perfectly with Devansh's personality.
- **Positive Outlook:** Which has clearly catalyzed his recent growth in communication skills.

Warm regards

Varun Katyal
